Biological paternal grandmother: 1943, died of natural causes.

Biological paternal grandfather: 1941, died of natural causes.

Why did she decide to become a donor

I have been thinking about the possibility of becoming an egg donor for a long time and I am so happy that I have decided to do it at last. For me it gives me the great feeling that I did something great, and for other people it will be the best gift in their lives.
